Rise in Covid cases in residential clusters

By Our Staff Reporter
 The latest rise in Covid cases in the city is from residential clusters and more than 90% of the cases are from inside the city, Health Minister Ma Subramanian said on June 15. The city has 984 active cases, out of which 50% are from Anna Nagar, Teynampet, Kodambakkam, Adyar, and Valsaravakkam zones. There are 46 streets in the city (9 in Anna Nagar Zone) with more than three cases each while six streets have five or more cases. According to health officials, only 51 Covid patients are presently admitted in hospitals and the rest are under home isolation and more than 80% of them have mild symptoms. Dr. Robin (Founder, Robin Hospital, Anna Nagar) has advised residents, especially senior citizens and those having comorbidities, to wear masks while going out to protect themselves and contain the spread. "It is important to take the booster dose as soon as one is eligible", Dr. Robin said.
